## KEY

*Italics* denote species known or likely to nest in or near Dismal Brook Wildlife Preserve.

M = migrant; seen passing through in the spring or fall.

W = species present during the winter months.

U = uncommon species, seen only occasionally.

R = Rare.

Total species to date: 137.  
Please report sightings of  
species not on this list to me,  
John Weeks @ 860.844.8965.
